PROFILE

Product & Web Designer with 9+ years of experience designing scalable, user-centered digital products. Expertise in design systems, interaction design, and developer collaboration. Focused on creating intuitive experiences that support both users and business goals.

PROFESSIONAL EXPERIENCE

Web Designer, Celonis 09/2019 – present

- **Designed and developed scalable UI components** for Celonis SaaS platform using Figma, HTML, CSS, and SASS, while driving animation and motion design to boost engagement.
- **Maintained and evolved the design system**, ensuring visual consistency and usability across multiple products and teams.
- **Collaborated cross-functionally** with developers and PMs in agile squads to launch features, improve UX workflows, and optimize web performance on the marketing site.

Web & Product Designer, Open Data Kosovo 04/2017 – 08/2019

- **Designed and developed civic-tech websites** using CMS tools, with a strong focus on usability, accessibility, and user engagement.
- **Contributed to product design** for open data platforms by creating wireframes, UI components, responsive layouts, and design system foundations.
- **Supported product initiatives** by producing visual assets for digital campaigns and public-facing launches, helping increase engagement and event visibility.

Graphic Designer, Innovation Center Kosova 08/2016 – 03/2017

- **Created unique brand identities** for startups and tech events.
- **Designed marketing visuals** for events, social media, and workshops.
- **Maintained brand consistency** across internal and external communication channels.

EDUCATION

Computer Science & Engineering, University for Business and Technology 06/2011 – 11/2013
